So SO pleased to have had Jodie and Charlie perform at our wedding last month. They're just the friendliest and most talented pair that elevated our day no end. They made our ceremony feel completely magical, and even played a background melody when my sister was reading a poem which was so lovely. They also learnt (and rewrote a few lines of!) our first dance song, which was performed perfectly, and they created a seamless transition between themselves and the evening DJ / saxophonist. The compliments have just kept coming afterwards - they're amazing!
